Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

## TABLE OF CONTENTS

### VOLUME 18 1917

PAGES

BIANCHI, L., of Pisa, Italy. Concerning singular transformations $B_k$ of surfaces applicable to quadrics ..... 379

BIRKHOFF, G. D., of Cambridge, Mass. Dynamical systems with two degrees of freedom ..... 199

BÔCHER, M., of Cambridge, Mass. Note supplementary to the paper "On certain pairs of transcendental functions whose roots separate each other" ..... 519

CHITTENDEN, E. W., of Urbana, Ill. On the equivalence of écart and voisinage ..... 161

COBLE, A. B., of Baltimore, Md. Point sets and allied Cremona groups (Part III) ..... 331

DRESDEN, A., of Madison, Wis. On the second derivatives of the extremal-integral for the integral $\int F(y; y')dt$ ..... 373

EISENHART, L. P., of Princeton, N. J. Transformations $T$ of conjugate systems of curves on a surface ..... 97

GLENN, O. E., of Philadelphia, Pa. A memoir on the doctrine of associated forms ..... 443

GREEN, G. M., of Cambridge, Mass. Some geometric characterizations of isothermal nets on a curved surface ..... 480

GRONWALL, T. H., of New York, N. Y. On the expressibility of a uniform function of several variables as the quotient of two functions of entire character ..... 50

HART, W. L., of Chicago, Ill. Differential equations and implicit functions in infinitely many variables ..... 125

HAZLETT, O. C., of Bryn Mawr, Pa. On the theory of associative division algebras ..... 167

HILDEBRANDT, T. H., of Ann Arbor, Mich. On a theory of linear differential equations in general analysis ..... 73

HUNTINGTON, E. V., of Cambridge, Mass. (with J. R. KLINE). Sets of independent postulates for betweenness ..... 301

HURWITZ, W. A., of Ithaca, N. Y. (with L. L. SILVERMAN). On the consistency and equivalence of certain definitions of summability ..... 1

KLINE, J. R., of Philadelphia, Pa. The converse of the theorem concerning the division of a plane by an open curve ..... 177

KLINE, J. R. (with E. V. HUNTINGTON). Sets of independent postulates for betweenness ..... 301
MANNING, W. A., of Palo Alto, Cal. The degree and class of multiply transitive groups ..... 463
PFEIFFER, G. A., of Cambridge, Mass. On the conformal mapping of curvilinear angles. The functional equation $\phi[f(x)] = a_1\phi(x)$ ..... 185
RICHARDSON, R. G. D., of Providence, R. I. A new method in boundary problems for differential equations ..... 489
RITT, J. F., of New York, N. Y. The resolution into partial fractions of the reciprocal of an entire function of genus zero ..... 21
—— On a general class of linear homogeneous differential equations of infinite order with constant coefficients ..... 27
SHARPE, F. R., of Ithaca, N. Y. (with V. SNYDER). Types of (2, 2) point correspondences between two planes ..... 402
SILVERMAN, L. L., of Ithaca, N. Y. (with W. A. HURWITZ). On the consistency and equivalence of certain definitions of summability ..... 1
SMITH, P. F., of New Haven, Conn. A theorem for space analogous to Cesàro's theorem for plane isogonal systems ..... 522
SNYDER, V., of Ithaca, N. Y. (with F. R. SHARPE). Types of (2, 2) point correspondences between two planes ..... 402
VAN VLECK, E. B., of Madison, Wis. Haskins's momental theorem and its connection with Stieltjes's problem of moments ..... 326
WIENER, N., of Cambridge, Mass. Certain formal invariances in boolean algebras ..... 65
WILDER, C. E., of Evanston, Ill. Expansion problems of ordinary linear differential equations with auxiliary conditions at more than two points ..... 415
Errata, volume 18 ..... 540
